

Ciena Healthcare plans to open one of our newest skilled nursing communities, Regency at Bluffs Park, soon in Ann Arbor.

Renovated at a cost of more than \$5 million, Regency at Bluffs Park is a beautiful short-term rehabilitation and sub acute care skilled nursing community conveniently located near the M-14/U.S. 23 interchange and adjacent to Bluffs Park.

The 71-bed facility will feature 37 private rooms and 17 semi-private rooms, all with in-room showers and baths. Designed to have the look and feel of a boutique hotel, Regency at Bluffs Park will offer physical and occupational therapy, dining rooms on each floor, a library and a spa. Additionally, each resident bed will have its own flat screen TV.

The 37,000 sq. ft. building is anticipated to receive Silver LEED Certification, one of the first private skilled nursing facilities in Michigan, and one of only a few nationwide, to receive this prestigious environmental honor.

Additionally, Ciena Healthcare donated more than one acre of land to the city of Ann Arbor to be used as a public access point to Bluffs Park. We are proud to partner with the city of Ann Arbor in providing public access to one of the city's gems – Bluffs Park.
